

SHAIK ZABIULLA

AI & ML Engineer | Deep Learning | Quantum Computing | Agentic AI

Kurnool, Andhra Pradesh, India | +91 7816965856 | zabi7815965856@gmail.com

github.com/shaik-zabi-321 | linkedin.com/in/zabi-ullah-8265ba25b

EDUCATION

B.Tech in Artificial Intelligence

Royalaseema University College of Engineering, Kurnool | Expected Graduation: 2027

TECHNICAL SKILLS

AI/ML Frameworks: PyTorch, TensorFlow, Scikit-Learn, OpenCV

Programming: Python, SQL, HTML, CSS, JavaScript

Deep Learning: ANN, CNN, RNN, LSTM, Transfer Learning, PCA, NLP, Computer Vision

Data & Analytics: Pandas, NumPy, Matplotlib, Data Analysis, Forensic Technology

Quantum Computing: Quantum Algorithms, Quantum Fundamentals, Qubitech/WISER

CS Fundamentals: Data Structures & Algorithms (actively learning), Git, GitHub, VS Code, Jupyter Notebook

PROJECTS

AI Hand Gesture Drawing & Air Calculator

- Built an AI-powered web application that detects hand gestures in real time using computer vision to enable air drawing and perform calculator operations without touching a screen
- Won 1st Prize at Tech Fusion 2K26 Web-Expo Competition, Dept. of CSE & AI, RUCE, April 2026
- Technologies: Python, OpenCV, Computer Vision, MediaPipe, Deep Learning

Sage Wealth - AI-Powered Financial Analytics App

- Developed a financial analytics application for analyzing personal savings and investment portfolios, including stocks and ETFs
- Integrated AI to provide intelligent investment recommendations and financial insights for data-driven decision making
- Participated in Hackathon GHAVI 2K26, a 4-hour flagship coding event at Tech Fusion, RUCE, April 2026
- Technologies: Python, AI/ML, Data Analysis, Financial Modeling

Power Plant Energy Output Prediction - ANN

- Built an ANN using PyTorch to predict electrical energy output, achieving an R-squared score of 0.93 (93% accuracy) on environmental sensor data
- Engineered a multi-layer neural network with ReLU activations and StandardScaler preprocessing, trained over 100 epochs using the Adam optimizer
- Technologies: Python, PyTorch, Pandas, NumPy, Scikit-Learn, Matplotlib

ANN Classification with PCA

- Implemented a classification model combining ANN with Principal Component Analysis for dimensionality reduction, improving model efficiency
- Technologies: Python, PyTorch, Scikit-Learn, PCA, NumPy

Deep Learning Minor Projects

- Cat vs Dog Image Classifier - CNN-based binary image classification using deep learning

- Date Fruit Classification - multi-class classification using pretrained CNN / transfer learning
- Sentiment Analysis using RNN & LSTM - NLP-based sentiment classification on text data

CERTIFICATIONS

- Quantum Algorithm Fundamentals & Hands-on Training (6 weeks) - Qubitech, WISER & Amaravati Quantum Valley, June 2026
- Quantum Fundamentals Program (4 weeks), 1 Academic Credit - Qubitech, WISER & Amaravati Quantum Valley, February 2026
- Deloitte Data Analytics Job Simulation - Data Analysis & Forensic Technology - Deloitte via Forage, February 2026
- Prime AIML Course - Python to Agentic AI (In Progress) - ApnaCollege, 2026

ACHIEVEMENTS & LEADERSHIP

- 1st Prize, Web-Expo Competition, Tech Fusion 2K26, Dept. of CSE & AI, RUCE - built the AI Hand Gesture Drawing App, April 2026
- Hackathon GHAVI 2K26 - built the 'Sage Wealth' AI Financial Analytics App at a 4-hour flagship coding event, April 2026
- Achieved an R-squared score of 0.93 on Power Plant Energy Prediction using a custom ANN built from scratch in PyTorch
- Completed 10 weeks of Quantum Computing training (Fundamentals + Algorithms) - one of few AI students with quantum expertise
- Completed Deloitte Data Analytics Job Simulation - practical experience in data analysis and forensic technology

INTERESTS

Artificial Intelligence, Quantum Computing, Financial Technology (FinTech), Agentic AI Systems, Computer Vision, Open Source Development
